**FOR IMMEDIATE RELEASE:****INTEGRASYS is hosting an IRG presentation on carrier monitoring workshop at SATELLITE Show!**

**Madrid, , SPAIN - Monday, March 3rd 2014 -**

On Tuesday 11th, at 5pm INTEGRASYS will host the most interesting IRG Carrier Monitoring workshop at booth 9127, SATELLITE 2014 tradeshow, Washington DC; right after the Interference Reduction panel table and Carrier ID tour.

"We are pleased to be supporting and presenting at the Integrasys interference prevention workshop". "We have been working hard with our members to mitigate satellite interference, and we are pleased to see member manufacturers, such as Integrasys, coming up with new and innovative ways of reducing satellite interference," commented Martin Coleman, Executive Director, the Satellite Interference Reduction Group.

"We are glad to supporting IRG and host IRG presentation in our Booth at the SATELLITE Show. We will be pleased to be demoing our tools for interference reduction at the workshop," commented Alvaro Sanchez, Sales & Marketing Manager, INTEGRASYS.

Following the IRG presentation INTEGRASYS will demonstrate the Integrasys' s Carrier Monitoring Products and Satellite Beam Design.
