[Radio Dla Ciebie](#) Launches On Astra 19.2° East

[Eutelsat](#) Will Expand Broadband Multimedia Services With Satellite Terminals From ViaSat

[InOut TV](#) signs agreement with SES ASTRA, to use satellite capacity

[Arianespace](#) decision ensures service continuity

[Hughes Network Systems](#) Europe Signs Pegas Wireless as Provider of DIRECWAY Broadband Services

[Norway](#) Buys \$15 Million Worth of RADARSAT-2 Data from MDA

[Odebrecht](#) selects Kingston inmedia as global VoIP gateway

[Venus Express](#) Contract for Astrium

[Gilat](#) Further Deployments of Satellite-Based Data and Voice Communications VSAT Networks in Nigeria

Telecom's stake in Eutelsat

[EADS](#) acquires BAE SYSTEMS 25 percent stake in Astrium and takes full control of Paradigm

[Norsat](#) portable satellite terminals destined for Kuwait

[Kingston inmedia](#) corners 50 % market share of UK DTH Independent Radio with unbeatable value and full service offering

[Inmarsat](#) launches WRC Star of Rally competition

[EMS Technologies, Inc.](#) launches Fleet 55 Maritime Satellite Terminal

[Flight 159's](#) takes shape

[New maritime](#) high-speed terminal from Thrane & Thrane

[ILS](#) Board to Review Findings of Russian Launch Investigation Into Block DM Failure

[Intelsat 907](#) is readied for launch

[GAN](#) helps lift telecoms in least developed countries

[Rosetta](#) - launch postponed

[Latvians](#) to boost productivity with 1,000 satellite IP modems

[Euroconsult](#)-2002 Satellite Business in Review

Feature

When a natural disaster occurs, or war forces the migration of huge numbers of refugees, the first priority is communication. Determining precisely the extent of the damage, the exact location and conditions, what resources are available and the number of people involved – all this is critical information that must quickly be made available to the charities and humanitarian relief teams that rush to the scene. [More](#)

[Gilat](#) Announces Satellite-Based Data Communications VSAT Networks in Nigeria

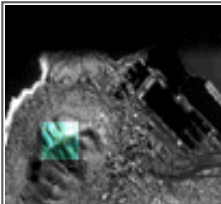

[SES ASTRA](#), With Partners And The European Space Agency, Will Develop Low Cost Satellite Return Channel

[Mitsui](#) Selects Tachyon Inc. for Pan European Broadband Satellite Communications Network;

[Nera and Xantic](#) enable new maritime communication services

[Golden Union](#) chooses Inmarsat fleet f77 after successful maritime trials

Feature

The judicious building up of a database for high resolution satellite images of South Africa is progressing well, following the completion of EROS reception capabilities at the Satellite Applications Centre (SAC). [More](#)
